Attorney's Docket No.: PI/4-3337A-1
For: ANTIBODY- OR NEUTROPHIL -
MEDIATED OZONE
GENERATION

COMMUNICATION

On 11 May 2005, above-named counsel filed papers in the United States Patent and Trademark Office (USPTO) requesting entry into the national stage under 35 U.S.C. 371 for international application PCT/EP03/12710. This submission included, among other materials, payment of the basic national fee and a preliminary amendment. The materials have been assigned U.S. application number 10/534,574.

A different agent has filed separate papers in the USPTO requesting entry into the national stage for international application PCT/EP03/12710. There can only be one U.S. national stage for a given international application designating the United States. Thus, the filing of two national stage applications is improper.

Neither of the filed national stage applications includes a declaration or power of attorney appointing the filing party as applicants' representative. Accordingly, applicants are given **TWO (2) MONTHS** from the mail date of this communication to: (1) file an executed oath or declaration in compliance with 37 CFR 1.497(a)-(b); (2) identify who has been appointed as applicants' representative with respect to the national stage of PCT/EP03/12710; and (3) provide a single correspondence address to which further correspondence is to be directed.

Failure to submit a timely and proper response will result in abandonment of this application.
